Experience

Frontend Developer Support

Dec 2022 - Current

Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Projects

Twitter Clone | [Website](#) | [GitHub](#)

- Built a Twitter clone using Next.js and JavaScript as the primary programming languages.
- Utilized Next.js to handle server-side rendering, routing, and API handling for a seamless user experience.
- Implemented real-time updates using web sockets and other modern technologies.
- Created a responsive and user-friendly interface using React components and styled with TailwindCSS.
- Integrated a robust user authentication using Next/Auth system to ensure secure access and data privacy.
- Deployed the application to a cloud hosting provider for easy access and scalability.

Comflix | [Website](#) | [GitHub](#)

- Developed a movie finder project using JavaScript, HTML & CSS to improve my skills in these technologies.
- Utilized the OMDb API to retrieve movie information such as title, description, and poster images.
- Implemented a search functionality that allows users to search for movies by title or keywords.
- Added functionality to allow users to view more detailed information about a selected movie, including plots, reviews, and related movies.
- Styled the project using CSS to enhance the user interface and improve user experience.

Personal Portfolio | [Website](#) | [GitHub](#)

- Created a personal portfolio using JavaScript to showcase my coding abilities and web development skills
- Implemented responsive design principles to ensure the portfolio looks great on all devices and screen sizes
- Utilized modern JavaScript techniques, such as ES6 syntax, to make the portfolio more efficient and maintainable
- Incorporated interactive features, such as animations and dynamic content loading
- Documented the project thoroughly with comments and clear organization to demonstrate my understanding of best coding practices and make the code more accessible for others to read and learn from.

Education

Frontend Developer Bootcamp

Dec 2022 – Current

Frontend Simplified

Technical Skills

Languages: HTML5 | CSS3 (+ SCSS, BEM) | JavaScript ES6+

Frameworks: React (+ hooks) | Next.js | Tailwind Css

Technology: NPM | Git | Yarn | React dev tools | Firebase v9 | GitHub |Vercel
