Experience

Frontend Developer Support   **Dec 2022 - Current**
Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Projects

Twitter Clone | Website | GitHub

- Built a Twitter clone using Next.js and JavaScript as the primary programming languages.
- Utilized Next.js to handle server-side rendering, routing, and API handling for a seamless user experience.
- Implemented real-time updates using web sockets and other modern technologies.
- Created a responsive and user-friendly interface using React components and styled with TailwindCSS.
- Integrated a robust user authentication using Next/Auth system to ensure secure access and data privacy.
- Deployed the application to a cloud hosting provider for easy access and scalability.

Comflix | Website | GitHub

- Developed a movie finder project using Next.js, TypeScript, Recoil, and ModalUI to reinforce skills in modern web development tools and libraries.
- Utilized Next.js for server-side rendering, client-side routing, and efficient code splitting for faster page loads.
- Implemented TypeScript for better type safety and improved development experience, reducing potential errors and improving code maintainability.
- Leveraged Recoil for state management, simplifying data flow and allowing for more predictable behavior in the application.
- Incorporated ModalUI for a sleek and modern user interface, enhancing the overall user experience and making the project more visually appealing.

Education

Frontend Developer Bootcamp   **Dec 2022 – Current**
Frontend Simplified

Technical Skills

Languages: HTML5 | CSS3 (+ SCSS, BEM) | JavaScript ES6+, Typescript(currently learning)
Frameworks: React (+ hooks) | Next.js | Tailwindcss
Technology: NPM | Git | Yarn | React dev tools | Firebase v9 | GitHub |Vercel
